

Networking

Networking is important to your job search. Making connections can not only help you find out about job opportunities, but may connect you to people who can help you get the job. You can use relationships you already have to network, such as friends and family. But it is also important to find other opportunities to network, such as local job clubs. Or by volunteering in your community.

Directions: Fill out the following table with as many people you know who may be able to help you with your job search. Then contact your network for help in your job search. Make sure you let them know what type of work you are looking for.
